CAREER OBJECTIVE

Motivated ECE student with knowledge of Java and experience in Flutter development. Seeking an internship to apply problem-solving skills, gain industry exposure, and contribute to real-world software solutions

WORK EXPERIENCE

Web Development • Internship Oct 2025 - Dec 2025
Cantilever, Virtual

EDUCATION

B.Tech, Electronics and Communication 2023 - 2027
Godavari Institute Of Engineering And Technology

PROJECTS

On-Demand Ambulance Booking Mobile Application ↗
Oct 2025 - Present

On-Demand Smart Ambulance Application
Designed and developed a mobile-based on-demand ambulance application using Flutter to reduce emergency response time and improve access to medical services. The application allows users to request an ambulance instantly by sharing their live location. Implemented real-time tracking to display ambulance movement on the application interface, enabling patients and hospitals to monitor arrival status. The system improves coordination between users, ambulance drivers, and hospitals, ensuring faster decision-making during emergency situations. This project strengthened skills in mobile UI development, application flow design, and real-world problem solving.

SKILLS

- Mobile Application Development
- Java
- GitHub
- Web development
- HTML
- SQL
- Flutter
- CSS

EXTRA CURRICULAR ACTIVITIES

- Regularly played cricket during college, gaining valuable experience in teamwork, coordination, and maintaining consistency alongside my studies.

ADDITIONAL DETAILS

- I am ready to take up an internship opportunity to apply my engineering knowledge, gain hands-on experience, and contribute effectively while enhancing my technical skills. I am highly motivated and eager to learn in a professional environment.
